

## **Klöber makes it feel like spring with CoMeet Outdoor**

What is so special about spring? The temperature's rising, the sun is out, and nature is coming back to life. Spring brings everyone outside, generates fresh energy and provides inspiration for new ideas. Klöber has taken up this momentum and launched the new CoMeet Outdoor to continue the success story of the CoMeet product family.

"CoMeet Outdoor is our answer to the growing desire for freedom and the yearning for more flexibility in the design of outdoor areas – for both working and relaxing," explains Dirk Hindenberg, marketing director at Klöber GmbH. "This CoMeet version is especially designed for the outdoors and is characterised by its excellent weather-resistant properties. Thanks to its corrosion-resistant base and UV-stable seat and backrest shell, CoMeet Outdoor is the perfect chair for open-air applications without needing to compromise in terms of design and comfort."

## **The homely archetype goes outdoors**

CoMeet Outdoor not only reflects the Klöber philosophy about sustainability and design, it's also a practical and classy piece of furniture that blurs the boundaries between indoor and outdoor spaces.

The chair is perfect for open-air scenarios. CoMeet Outdoor features a corrosion-resistant sled base as well as UV-stabilised finishing and meets the high requirements of the DIN norms for outdoor seating. This model echoes the design of interior living in the outdoor spaces and unlocks new possibilities in work-life culture. Meetings on the balcony, workshops on the terrace, or breaktime in the courtyard: the potential applications are unlimited.

The colours Maple Red and Classic Black represent a visual link with nature, whilst at the same time maintaining a modern and stylish aesthetic. CoMeet Outdoor is tested in line with the standards DIN EN ISO 9227:2023-03 and DIN EN ISO 10289:2001, as well as the outdoor norm DIN EN 581-2, to guarantee durability and quality.

### **Coffee + Meeting = CoMeet**

The concept of active sitting is the core value of the CoMeet product family. The well thought-through combination of materials, design and construction results in a pleasant flexible sitting experience for the user, ensuring ergonomic support, comfort and dynamic. These qualities make CoMeet the perfect choice for all kinds of meetings – at the office, at home or in new working environments.

“The workplace is increasingly moving towards a homely ethos – in both visual and atmospheric terms,” explains Jörg Bernauer, designer at Klöber GmbH. It’s vital that people feel at ease, both at home and at work. A homely feel is also a guarantee of wellbeing – and CoMeet embodies just that.”

This Klöber chair communicates a real design statement. It’s no surprise that CoMeet recently won the IF Design Award 2024.
